I have 3 chinchillas that are about 3 years old. They live up to be 20 years old. 2 females One male. The male is fixed. They all live together in a four story cage. So I. Would like for them to be sold together because they are used to each other. Comes with cage, food , 2 houses, water bottle, 2 dust baths, lava dust, cooling slab, toys, food bowls, and bedding. So I will have the full set up and won't need to buy anything extra. Rehoming
