I need my license back, it is suspended. The motor vehicle place wants over a thousand dollars for me to get my license back. I want to know if there is any other option of help out there as I am already drowning in debts. I am looking for a professional legal person to help in return of technical repair with computers, networks, web-design set up , etc... I can also pay payments or something if not too much as I already am having financial issues.

I am looking for Legal help ,  
Can trade Tech service or Pay
