

Missing Golden Retriever (Franklin, NC)

Location **Alabama**
<https://www.genclassifieds.com/x-512008-z>

I am asking for your help, in locating my Golden Retriever, Shadow. He has been missing since May 27th.
 After numerous calls to shelters, veterinarian offices, one office told me that a woman from another state, took my dog into Noah's Ark, to be scanned for a microchip. They told her to take him to the Macon County animal Shelter, gave her detailed directions how to get there, as she said she wasn't from here. She never brought my dog there, am it is assumed, she took my dog with her, probably to where ever she lives. (The gal at the vet's office, thought she said she was from Georgia, but wasn't completely sure).

He is 12 years old, has a white face, also has arthritis really bad, is on daily medication, and more than anything, we really, really miss!
