2 Healthy beautiful white Cockatoos. \$750 for both birds and cage. They are a mated pair male and female and can't be separated. No health issues. They stay in their cage in the basement and don't get any attention from people, but they keep each other company. Semi-tame. They don't like to be held, but have never bitten me. They are approximately 5 years old, so they are young, but also of a good breeding age, but I have no intention of breeding birds. The cage and food/supplies are included. Rehoming fee of \$750 for both birds. That's \$375 each for a healthy cockatoo. Text only, no phone calls.
