

# Low Voltage (Ethernet) Wiring Job (danville san ramon)

Location

California

<https://www.genclassifieds.com/x-512191-z>

I am moving into a new house shortly and would like to run some additional Cat6 cable. Was hoping to work the the general contractor that is doing work for other things in my house but they don't feel that they have the expertise so I am now looking for someone else to help out.

I am guessing the job will take approximately an entire day to complete. It's about 20 total ethernet drops throughout the house terminating into a closet I am having built.

I would prefer a fixed cost estimate but am willing to consider T&M. Help needed.
