Just coming in to town and was on a long flight? Tired of sitting at a desk all day at work or in for a business conference? Just thinking about how to relax before starting your week or in need of relaxation now while its only the middle of the week sounds like you might be in need of a massage!

I am mostly only able to out calls, but on a rare occasion I can do an in call. I do massages for men, I start with your upper back, lower back, back of your thighs, calves, and feet. I also work on your hands and fingers. I use massage lotions/oils. Hope to hear from you. So if your in town for business, then hit me up, sir. I wish that I could do it regularly!

Please send an email or text to 678 525 1335, if you are interested and want.
