Hi All-I'm 29 years old. I've been playing music for 20 years. I'm a proficient bassist/guitarist/drummer/vocalist. I play other instruments too. I'm trying to do some full-band live recording with really shitty equipment (a pin mic). Check out some random tunes of mine soundcloud.com/james-matz ethicalviolins.bandcamp.com reverbnation.com/sharkattacksunrise

I'd like to play guitar with a drummer, bassist, keyboard player and whoever else wants to jam on some noise. I use alternate tunings and I can sweep pick/tap all that other BS. I want to lay down some improvised stuff and release an album of it.

Likes:Zorn, Chomsky, Friere, Coltrane, Coleman, jazz fusion, fretless bass, saxophone, sonic density, sunn 0))), drone music and so on.

Please get in touch I have places to record. Thank.
