

# HUGE Antique Thailand Chair (Anchorage)

I have a huge antique chair hand woven from Thailand. It was in my business but now that I condensed space it needs a new home. It has not been altered and maintains original paint with expected aging, completely woven by hand with no other materials besides tiny nails along the outer trim. Chair stands approximately 6ft tall and over 3ft wide. Incredibly sturdy and all around great addition to a space needing a unique touch. The eggshell shape makes for excellent lighting when sitting in the chair to read or just be. I was offered 2k for this chair several years ago by a couple different local dealers but was not ready to part with it and I do not know their names or I would contact them directly so I am posting. It is very light and I have moved it by myself no problem, just too big for my home. I am asking 1500.00 to sell it fast but will accept a reasonable offer knowing it goes where it will be cherished. Serious inquiries only please. Thank.
