

Need patient home (Dimond)

Location **Alaska**
<https://www.genclassifieds.com/x-512570-z>

In search of a more stable home. Baby almost here and apartment doesn't accept pets. Lots of love to give!

Name: Lady
Mix breed of possible Beagle/terrier & husky
Female, with shots- NOT fixed

Kennel trained
Potty trained
Knows some basic commands: sit, stay, "off", paw/shake, roll over.
Comes when called, unless outside, then you need to whistle or clap as well.

Lots of energy for active household but can also curl up on the couch with you or by your feet for hours.
Loves to play fetch and is good with other dogs and kids.

Occasionally jumps up when excited. Also loves to smother with licks.
If left alone and out of kennel, bones and plenty of chew toys are highly recommended if you don't want her getting bored and finding something of yours to chew on.

If you have the time, love, and patience for Lady, please contact me. The pound is no place for this lovely girl.
