Hi! I have recently reopened my in home daycare. I have been caring for kids ages infant-16. I have 2 children of my own 2 months and 5 yrs old. Generally what our day consists of depending on times of arrival early morning quiet times until children have gotten awake and ready for the day , a breakfast of there choosing eggs, pancakes, French toast etc, after everyone has eaten we clean up we watch usually bout half hour of TV time and we began the day with some learning activities varies of the ages. We will have snack time and the kids will have play-time were we have a whole area of just toys and books n some cartoons in our front room. We will do a nutritional lunch and then quiet time for the kids who take naps while the older ones may decide what they want to do varies from ages as well.. Towards the end of our day we can do backyards play depending on weather n another snack around 2 or 3... We also take park trips we will take zoo trips go for walks and much more... 85\$ a week per child and great experience Thank!
