

1 Year Old Male Neutered House Cat (Dover)

Location **Delaware**
<https://www.genclassifieds.com/x-513018-z>

Mason is a 1 year old house cat (still has his claws) that *really* needs to find a new home without any other cats. He loves dogs and loves people, but he's very dominant with other cats. He was neutered at 3 months old, UTD on shots. He MUST go to a home where he will be indoors AND where there are no other cats. We have tried every method possible to help him calm down with the other cat but it's not working. He will come with all of his things. Reply to the email address if interested for more information.

Rehoming Fee Will Be
