

# Bass Player Wanted (Wilmington)

Location **Delaware**  
<https://www.genclassifieds.com/x-513022-z>

We are a popular female fronted cover band based out of the Wilmington/Philly area and are looking for a bass player who is skilled, professional, and has the desire to play a lot. Must play a 5 string, have quality gear, transportation, fast learner, and be able to have a flexible schedule. We are with a management agency and have a busy summer and are currently booking fall. We try and practice 1-2 times a week and we gig between 7-10 times a month. We play a wide variety of music but gear more towards pop/dance, but we also do classic rock, rap, pop-punk, and some country. If interested please email this ad. If you have audio and or video of you playing that would be helpful as well. We are looking to hold auditions on June.
