TESTIMONIALS

"We have had a great experience with Alston Computer Services. They were flexible in working with our scheduling needs and very thorough in the completion of our project."

-Rachel Blum, Omaha Sports Academy

"When my laptop recently crashed, I took it to the Geek Squad at Best Buy, and they wanted to charge me exorbitant fees for diagnosis and repair. I decided to look for other options. I saw Vincent's ad on Craig's List and contacted him. He was able to work on my computer the very next day, and he had it up and running within 24 hours. His charges were very reasonable, and he did an outstanding job. . . . I would highly recommend Vincent for computer repairs. Should I have any computer issues in the future, I will surely give him a call!"

- Barbara Czarnick, Assistant Vice President, Employment & Employee Relations Mgr -- HR
American National Bank

"I know just enough about technology to know I want to hit it with a hammer when it doesn't work or I can't get it to do what I want it to do. Vincent explains problems and resolutions in language I can understand. He is always responsive, professional and reliable.

I trust him implicitly as he has worked on multiple websites, computers, social media, and has always exceeded my expectations. I recommend him highly for all of your needs.

Robin L. Grossman, Author of *Entrepreneur*

I highly recommend Vincent. He worked on and fixed my computer in a timely manner and walked me through the entire process. I will recommend him to everyone.

I highly recommend Vincent. He worked on and fixed my computer in a timely manner and walked me through the entire process. I will recommend him to everyone!

"Vincent is a consummate professional. . . Anyone that has the opportunity to work with Vincent will be extremely lucky to have him as part of their project."

Jim Nekuda M.A. Board of Governors, Metropolitan Community College
