

# Missing Cats that were trapped amp removed (Hilton Waikoloa Resort)

Location **Hawaii**  
<https://www.genclassifieds.com/x-513191-z>

I cared for these cats in colonies for 4 years, they lived on property of Hilton Waikoloa Resort, most of them for all of their lives, and they had always been cared for. Most had been trapped, fixed, ear-tipped, micro chipped, and released back on property by AdvoCATS, and other caring and kind people, as well as myself. Heartless managers & landscapers had these cats unethically & cruelly trapped. They removed them from property, lied to me about it, managers treated me like a criminal for just asking questions, and had me fired from their Gift Shops. Cats were not left at the Humane Society's. I heard some may have been released at Queen's Marketplace parking lot, but I cant find them. I assume they were killed or abandoned elsewhere. I know newborn babies died after 2 new mom's were trapped and taken away, and I could not find the babies. Hilton could have had non-kill shelters remove them had they reached out to them, or to me. My son who is autistic helped me care for these cats, this hurt us horribly, we are now in therapy, and in debt. We miss them so much. Sometimes I have nightmares about them. If you have any information about our missing beloved kitties, please let me know. Reward. Thank you kindly.
