Good morning .. i am a 9 year experince general ase certified bumper to bumper mechanic .. i only charge 35 to replace your brake pads for either front or rear and 45 to replace brake shoes for all makes and models .. i have my own place , tools and lathe machine to cut drums and disc .. if u are experiencing this type of problemsÂ VIBRATION WHEN BRAKING

Your brake pedal, steering wheel or whole vehicle shakes and vibrates or pulsates when you apply the brake. This could mean that you need to resurface disc brake rotors, or it signal a serious problem of a loose component or faulty steering mechanism.
