My sweet cat Baby Bear got outside while contractors were working on the house. She is a mostly indoor cat; going outside only with a fenced in yard. She has an orange collar on with yellow rubber ducks and bells that is a bit faded. She is a tortishell (black and orange) is a medium coat, a slight build, not declawed, and has extra toes on her front paws (polydactyl). She is super friendly and food motivated! Please let me know if you see her anywhere! Reward if.
