SHIFTERS

- SRAM X9 2x10 Trigger Shifters in NEW condition. These came off of a titanium Salsa El Mariachi after only a couple rides. I decided to switch to grip shifters. The best price I could find for these online was about \$90 for a pair. I would like \$70/pair

BRAKES

- Avid Elixir 7 Disc Brake Set (Front and Rear Calipers and Levers): In very good condition. These came off of a titanium Salsa El Mariachi after only a few rides. They are Avid equivalents of Shimano SLX hydraulic brakes. The best price I could find for these online was about \$200 for front and rear. I'd like \$120 for both calipers with brake line and levers attached.
-NEW Avid G2 Rotors (2): In the original bag. Never mounted, never used. \$20/each

CASSETTE/CHAIN

-Shimano Ultegra 10-Speed Cassette and Ultegra Chain: Used but a lot of life left in them. One of these cassettes costs about a hundred bucks new. The best price I could find online for the cassette was about \$50. For the cassette and chain, I'd like \$20.

TIRES

-Panaracer Paslea Tourguard 700x35 Tires (2): NEW condition. These are the Kevlar bead folding version, not the cheap and heavier wire bead version. Puncture protection. I mounted these and put about 5 miles on them before I switched to 32's so I could fit fenders. The tread on these show no sign of wear. The best price I could find online for a similar tire like these was about \$40 each.

-Tiagra Rear Hubs (2): Used but in perfect working order. The bearings are super smooth, and perfectly adjusted with thousands of miles of riding on them. The best price I could find for these was about \$50 for one. I like \$10 each, or \$25 for both.
