

For disc brakes AND rim brakes! If you have rim brakes now but are thinking of going to disc brakes in the future, these wheels will go with you.

Time-proven Shimano Deore disc hubs laced to Zac 2000 rims (built in Europe with final tensioning and truing done by me here in Hawaii).

These wheels are very robust--heavy-duty for rough trails or downhill use, as well as normal street riding.

Double eyelets. Stainless steel spokes. 32-spoke wheels. Includes QR skewers and Schwalbe rim tape.

I have lots of other good deals--if you're coming to pick up one item, why not check and see if there's anything else that you could save money on at the same time--wheels, tires, tubes, lube, workstands, Brooks leather saddles, etc. Please click on the "More ads by this user" link under the map to see the current selection.

Please note that I am older and my hearing is not as good as it was fifty years ago and I cannot understand people over the phone very well and therefore I prefer to communicate by email. Please click on the "reply" button above. The telephone is only used to coordinate the final meetup. I know it's a hassle, but Hey, you're saving money and it's for a good cause! Thanks for your understanding.

All funds in excess of my actual cost to manage these items (actual fees collected for labor provided and donations to the Hawaii Foodbank, Sevenside Children's Home, and others). And, there are another 100+ businesses that are legitimate, well-run businesses reported by ScammyWatch and ScammyNavator. Mahalo for your support!

IMPORTANT NOTES: You must bring the QR skewer on the through-axle with the wheel to ensure that I can hang on the truing stand. If your wheels require a special proprietary spoke wrench you must bring that also!

Complete retensioning, dishing, and truing \$10/wheel

>broken spoke replacement (includes complete retensioning and retruing) \$25
>cup-and-cone wheel bearing adjustment (ball bearings) \$8/wheel--this includes adding new grease, although the old grease is not removed.
>cup-and-cone hub overhaul (dismantle, degrease, new grade 25 ball bearings, new waterproof bearing grease, reassemble, adjust)-- \$15/fronthub and/or \$20rearhub. NOTE--if upon disassembly, degreasing, and inspection the axle cones and/or cups are found to be scored/pitted and need to be replaced, there will be a \$10 evaluation fee per wheel even if the customer chooses not to have the wheel rebuilt.
>complete wheel building/rebuilding \$39/wheel labor. NOTE- this is lacing, tensioning, dishing, and truing the spokes--no hub bearing work is involved.
>I can cut and thread my own premium Sapim (made in Belgium) stainless steel spokes, black or silver, 2mm straight gauge or 2-1.8-2 double-butt, with silver-colored 14mm brass polyax nipples. \$.90 (straight, silver), \$1.00 (straight, black), \$1.05 (double-butt, silver), \$1.15 (double-butt, black) each.

>Satisfaction guaranteed and 100% of all fees collected are donations to charity.

WHAT PEOPLE ARE SAYING LATELY: (last updated 5/18/15)

5/18--Cameron from Waipahu says:

"You did a really good job . . . Thanks for all of your help!"

5/15--Jon from Honolulu says:

"I just wanted to tell you that I really appreciate the time and information . . . Again I really appreciate it and thank you."

5/10--Spencer from Whitmore says:

"thank you very much i was able to use it for my boy scout bike ride activity and it worked great."

4/26--Cameron from Waipahu says:

"Thanks for keeping me updated. I really appreciate it. I have always felt less confident on that bike because of its braking than my main bike. I am glad you were able to figure it all out. Really appreciate everything you have done ."

4/24/15--Darryl from Honolulu says:

"Hey Clark,

thanks for the tires they work great. now i want to switch my tri bike tires to the conti 4000sII 700x23. need 2 more tires".

4/15/2015--Gino from Ewa Beach says:

"Thanks again for the great deal on the tires and for the lube!"

4/10/2015--Al from Ewa Beach says:

"I ride my bike yesterday and shifting lowest to highest gear it was smooth like a brand new bike. .I couldn't say more of you but you're a top notch CLARK!!!!"

4/10/2015--Jerome from Kailua says:

"The (new RS81 carbon) wheels and CONTI GP 4000's are great. Had to ride down Round Top in the rain and not a single slip. Light, strong, fast and best of all was a great deal with a simple and easy transaction. Really completes the bike nicely. The Chain-L #5 makes for a quiet, smooth ride."

4/7/2015--Charles from Schofield says:

"I highly recommend doing business with Clark. He is a true professional and really takes the time to explain your wheel system. He only has your best interest at heart. He also has a variety of other offerings that will suit your cycling needs. You can always buy with confidence with this guy."

4/6/2015--Brandon from Ewa says:

"Thanks for your help."

{FEEDBACK FROM MARCH GOT ACCIDENTALLY PERMANENTLY DELETED --sorry, my mistake}

3/1/2015--Amador from Ewa Beach says:

"Thank you!!"

2/28/2015--Al from Ewa Beach says:

"I wish I had met you earlier!"

2/27/2015--Ben from Ewa Beach says:

"My bike turned out very well. I no longer have a need to sell or get rid of it. Everything rolls smoothly and I can reach all the gears. I didn't realize how much I was fighting my bike. I'm glad that you keep busy and share your skills. Really appreciate you teaching me how to keep my ride rolling."

2/22/2015--Dan from Wahiawa Heights says:

"Took them out on one ride since you had them and i want to say that they feel like they roll faster in the turns. Anyway they feel good and ill be bringing in my other wheelsets to you slowly but surely. Thanks mr cooper"

2/20/2015--John from Schofield Barracks says:

"Definitely top notch quality in these wheels. They are perfectly true and you can feel the difference with the properly packed and adjusted bearings. I actually saw a 4mph increase in speed going down the mountain to Wailua. Thank you again for the wheels!"

2/12/2015--Jim from Honolulu says:

"Thanks again for the (RS81-C24 carbon) wheels and for the info."

2/8/2015--Kevin from Honolulu says:

"Thanks for the new (Ultegra 6800) wheels! I took them for a spin past Waimanalo today and they're really solid. It feels like a new bike. I hope I have a chance to buy something else from you later, or at least send some others your way."

2/7/2015--Nick from Kailua says:

"Thanks for taking care of me (new Ultegra 6800 wheelset)."

2/4/2015--Peter from Mililani says:

"A complete deal- precision as well as quality! I use my bike to commute to work and I had a broken spoke emergency. I emailed Clark at 6pm, dropped off the wheel at 7pm. He replaced the broken spoke, trued and tensioned the wheel and had it ready for me to pick up at 5am the next morning so I could get to work. Very reasonable fee. Highly recommend. Also the Chain-L lube is the best! I will be doing service with Clark for an unforseeable amount of time or till I retire off my biking "which is never". Please support this amazing small shop man."

2/3/2015--Jason from Ewa Beach says:

"I did test out the reburbished front wheel you sold me this morning. It performed great descending tantalus. Good braking performance. Thanks again. I really appreciate your expertise and good communication."

2/1/2015--Randy from Wahiawa says:

"I love the way you do things, your work and letting me know what's going on. The broken spokes you replaced work wonderful and the brakes work like new. I'm so happy that I'm donating an extra \$10 more than you asked for your work!" . .
