Frequently Asked Questions:

So how exactly does this process work?

I require you to fill out about your business, Business colors, and style, the guidelines and services, and I will find that you like a lot of information that you would like to have. Once you fill out the information, I will view it, and I will be confident about your business, and I will be able to help you without any problem.

What software do you use?

I make use of Adobe Illustrator for every piece of vector artwork, ie - logos, icons and illustrations. I make use of Adobe Photoshop for flyer, business cards and alternative printable material. I have already been working with these programs for longer than 15 years and I am quite successful at making use of them. I am able to figure out just about any problem that you could have.

Do you vectorize images that the client provides?

Yes I do. I can provide a quote according to the artwork that is provided.

What file types do you provide?

I will offer you the final files in the following formats - ai, eps, pdf, jpg, png & gif file formats.

Do you offer refunds?

No, I cannot. I work with you until you're happy. I spend a lot of time contemplating, composing and then designing the concepts. Basically if you are not happy with your initial concepts, I will recreate the logo or graphic until you are satisfied at no additional charges.

I appreciate you for exploring my ad. Please check out my website, www.graphixgod.com for additional information, and if you need to get in contact with me, it is possible to contact me via text, phone call, or.
