I am looking for a high school / college student who is creative and understands I- PHOTO.
 I need to export slide shows. Is it possible to change a slide show to a video, to music ?

I also can't find a slide show that was on my computer. One day it wasn't there and I tried to find it but no luck.

Someone who can answer some questions about I-PHOTO

We can meet at the Damaroscotta library. My schedule is flexible starting on July.
