

1948 56 Ford Truck amp Car fiberglass molds (15000. USD)

Location

Michigan

<https://www.genclassifieds.com/x-526177-z>

Having retired, I am selling the assets of Fairlane Company, producer of high quality fiberglass fenders, running boards and related parts for the 1940- 1966 Ford Pickups and 1941-1948 Ford cars, for the past 24 years. All molds have a Class A surface and most are nested in steel frames. Approximately 90 molds. I am clearing the warehouse they are stored in. Price is now pennies on the dollars for what it cost to create these molds. The rights to use the Fairlane name is included in the sale. There are enough molds to fill a couple semi trailers.

I will email a complete list of all molds upon request.

Terms are CASH only.

I live 3 hours from the warehouse, so an appointment is necessary to view them. Business experience and or fiberglass experience is a bonus to carry on with this.
