

# Crate Blue Voodoo BV120H 120 watt Half Stack (400 USD)

Location **Nevada**  
<https://www.genclassifieds.com/x-526608-z>

This amp, sound-wise, is absolutely on par with Marshall. Made here in the good ole' U.S.A. Has held it's own supremely well in my band who's other guitar player uses a Mesa. Easy to dial in a large range of consistently high quality gain/distortion tones, a very respectable clean, and very fine gritty (slight to heavy duty overdrive) tones in between. Really nice sounding Accutronics spring reverb.

A bunch of top pros have used this model. You try it out, you'll want to buy it.

Paired with the excellent Blue Voodoo cab (made in USA, mono/stereo operation , 4 ohms/16 ohms operation, 3/4" void free birch construction). Comes with a two button footswitch for switching channels and for the reverb.
