The first would be either a skull in black and gray on one of my butt cheeks. the other side has an evil mask tattoo already so I need something on the blank side. Or else some cool gothic type lettering that spells EVIL. And the second one is just a quick touch up on the shaft of my penis. there's black ink that's blown out or never took in a few places and really I just want to quick going over to fill in those spaces. Looking to spend no more than \$200 total for everything. Please reply if you are an artist and are interested..
