

looking for a few people to start up a welding business (milwaukee)

Location

Wisconsin

<https://www.genclassifieds.com/x-527103-z>

I'm looking for some people to help invest or participate in starting up a welding business. I myself am an experienced welder fabricator and took classes in business. If you are interested let me know. Those who are experienced will get much better pay. This is a startup company sp I don't have much to work with yet. But if you're interested in helping out let me.
