

# Looking for potential UVM roommate (Downtown Burlington close to UVM campus)

Location

Vermont

<https://www.genclassifieds.com/x-527411-z>

Hello,

I'm going to be a junior at UVM this fall, transferring from Wheaton College in Massachusetts, looking for a bigger picture and roommates who are down to earth. I am into fitness and healthy eating but also enjoy eating good food with good company. I am both social and quiet, and I enjoy cooking, playing ultimate Frisbee, and spending time with chill people who are flexible. I am studying political science. Law school may be in my future. I have supportive parents, so finances are not a problem. I have a potential apartment available and need a roommate to sign the lease with. The apartment is on College street and only two blocks walk away from the UVM campus. I will be going to Burlington early next week to potentially secure the room and would like to find a roommate before then. Please contact me if you have any questions about the apartment or already have a place in mind and is looking for a roommate.

-Chris
