

Model Couple Needed

Location **Vermont** https://www.genclassifieds.com/x-527924-z

Looking for both a male and female model for a cover art shoot for my debut Novel. Haven't been able to find what I need online so I have decided to photograph it myself. I am a photographer but normally specialize in weddings.

I am looking for a female model with short, (pixie or bob length) blonde hair and a male model with dark brown hair. Eye color is not a issue as you won't be looking directly into the camera however both models should be average/ fit build.

If you know are or know of someone who fits that very simple yet somehow impossible to find description please contact me for further details. And if you could provide a picture that would be!
