

Looking for an RV lot to rent (Missouri)

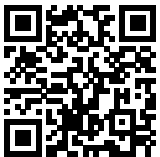

Location **Arkansas**
<https://www.genclassifieds.com/x-528468-z>

We are looking for a place to park our 2000 Montana 5th wheel travel trailer for a month or two. 50 amp service preferred, water and sewer and located somewhere within the map shown in the images.

Here's the catch: We are renovating the camper. The interior is nearing completion and most of the board cutting and hammering is done. We've installed a new roof, so most of what is left to do is exterior: reseal, clean and paint. I also want to re-insulate the underbelly and repaint the exposed frame.

We work cleanly, we don't saw boards at 5am or 10pm, we know how to be considerate. If you have a spot for us, please give us a call or!
