

Genie Lamp (145 USD)

Genie Lamp for sale, all brass. May or may not have a Djinn inside. This is an old family heirloom which my mother and grandmother claim my great grandmother brought over when she escaped Nazi Germany.

My mother and I are skeptical but my bubbe insist that there is something trapped inside (she was pretty big on the evil eye) and kept it locked in a attic trunk. When she passed away it was given too me. The top has been sealed with wax. Whether or not the story is true it's a really nice piece. Asking price or best.
