I have a ps vita in good condition that I am selling with 10 games and a memory card. The games are MLB the show 12, madden 13, FIFA 13, call of duty black ops declassified, mine craft, uncharted golden abyss, grand theft auto liberty city stories, military history, little deviants, and call of duty roads to victory. I have had a great time using this amazing system and it has never had any problems. It is the 3G version and I'll leave the SIM card so you can activate it if you please.

Let me know if your interested! My name is.
