**\*ALL PHOTOS ARE MY WORK!\***

Have you always wanted dreads but didnt want the commitment? Well now you can (: I make synthetics dreads that can be worn daily, even weeks at a time. Full head or accessory.

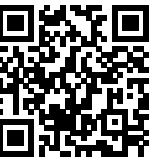

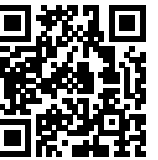

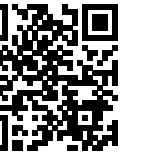

**\*\*The dreads are BRAIDED IN. No need to throw away all that hair with dread wraps! \*\***

My method varies from crotcheted to knotted and twisted. Single ended, or double ended for volume. They look extremely natural! I constantly get compliments and always fool people into thinking the dreads are natural neglect.

Synthetic dreads are great if you regularly put your hair in braids or just want a protective style. Once you purchase, you won't have to again because the dreads are reusable and washable!!

I can incorporate 3 different colors of your choice into a set of 10 up to 60 dreads. Double or single ended. I don't charge extra for your preferred color arrangements (ombre, highlights, accents etcetera). Just for the dread complexity and amount of colors.

We can discuss the length, thickness and how matted you would like the dreads to be. Really the customization is up to you.
