

YOU can get paid to receive text messages to your mobile phone. You can make money from doing absolutely nothing! This is not a joke, it's not fake or a scam and thousands of people are already doing it across the United States.

Over 90% of all text messages are read instantly by the recipients. This makes mobile marketing the wave of the future. You do not have to buy anything or even click the links that are sent to your phone. You will get paid even if you don't read the message.

Thats right, if you refer a friend you will also get paid for their text messages as well as yours. This turns this into a huge opportunity to make money. We have seen people make up to \$1,400 a month just for doing nothing! They mentioned the pay to get text messages program to a few friends, they told a few friends and before they knew it they were raking in big bucks for absolutely nothing!
