I recently found out about this app where you can search through different stores or categories to get rebates back on many different items. So far I have mainly used it on groceries, but there is a lot more than that. Cash out directly to your PayPal once you earn \$10.

This month so far I have earned \$8.60, and last month \$38.70

There is a teamwork feature where once your team hits a goal you get bonus money for not even buying anything. This works in levels, for example

June Level 1: If your team earns \$10 in rebates, you get \$2 bonus cash. This was for nothing more than your team reaching the goal.

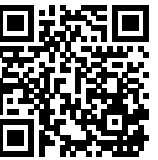

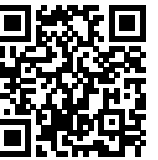

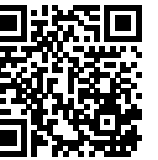

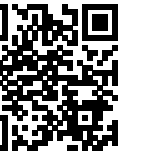

June Level 2: If your team earns \$15 in rebates, you get \$3 bonus cash.

And so on....

Join my team and we can help each other save money. Currently I only have 1 team member and they are inactive. Since the 16th of May they have received a \$5 bonus based solely off my rebates.

To be a part of my team, download the ibotta app and use the referral code: vcbysyd  
 or if you don't mind links on Craigslist then <https://ibotta.com/r/vcbysyd>

Also just for joining my team ibotta will give you an extra bonus for redeeming your first rebate within 2 weeks of getting the. :)
