Thanks for taking the time to read my ad. I offer professional remodeling services for your home and/or properties. I don't use sub contractors and have small overhead costs, because of this I am able to keep your cost lower than the competition. Customer satisfaction is my primary goal. I have built a good name for myself and plan to keep it that way. My services include: complete demo, prep, and install of finished product. I do my own electric, plumbing, framing, drywall, and tile. Hand built countertops, shower stalls, flooring, and backsplashes are the most popular. There is no task too small. I would like your business and my prices are lower than the competition. I look forward to hearing from you and building together. Please check out and like my Facebook page, Nicodemus Improvements.
