

Bottle Baby Kitten Adoptions (40 USD)

Location **Idaho**
<https://www.genclassifieds.com/x-560430-z>

Bottle babies are ready for their furrever homes (you've got the next 15 years carved out for cat care, right?). Indoor cats only, no declawing. We are interviewing now for these awesome playful and lovable kittens. 8 weeks old, already spayed or neutered, first immunizations and deworming is included in the rehoming fee of \$40.

Meet Ranger (some of us call him Bear). He is as you can see very unique. He has a stubby tail. He and Tazzy are siblings and love to run around like they are on a sugar high. Play, play, play and more play. He is also neutered, first set of shots, de-wormed and ready to go. He does not want to be in foster care anymore and is desperate for his own family (and would like to make it a family affair with his sister, Tazzy!)

Tazzy is up for adoption too. She is spayed, first set of shots, dewormed and ready for her forever home. Quite the talker and very investigative. Loves her brother Ranger. Could be a good pair. Come see her and share her story. Mom was hit by a car and she and her siblings were bottled from 2 weeks old. Beautiful Tortie girl. Particularly sweet for a Tortie.
