Hi I'm currently looking to try my hand at boudoir/photography.

My style of photography is a blend of Street and traditional. I think the outcome would be very cool! You must be at least 18 since boudoir is a little Risque but in no way involves porn or nudity I can promise you that. The most it involves is sheer clothing.

What I'm looking for is attractive Females, Who are looking to expand their portfolio and willing to trade their time for photos & some extra spending money.

All photos will be kept private and I will provide you with a copy of course.

You can help me help you!

If you are interested please send me any current photos of you and any ideas you would like to try.

I'm very open to suggestions & ideas so if you have any please share them any idea to me is a great one so don't be shy.

Thanks for your.
