

Baby rabbits to rehome

Location

New Hampshire<https://www.genclassifieds.com/x-560563-z>

I adopted a few rabbits a couple months ago who were pregnant, and both does had babies on the 15th of May. The babies will be eight weeks old on the 10th and ready for their new homes.

I'm charging a \$15 adoption fee, as I put quite a bit of money into the mother's while they were pregnant to ensure the health of both them and their babies, and invested even more when the babies were born.

I can get better pictures upon request.

UPDATE!

If I've sexed them correctly, I have the following. Males - three white, two black and a brown. Females - one white and one.
