I am looking to babysit some kids in my house! I have two boys that are 1 and 3. I am negotiable on times and would prefer full time children ! I will provide food. If your child is in diapers you would need to provide them and wipes with cream. I will do age appropriate educational activities with the children and take them to fun educational places if the weather is permitting with parents consent. I have worked in daycares for two years and I love it I just think watching kids in my house would better suite what I am looking for. If you are interested please give me a call or a text whenever. I hope to hear from you and your little!
