Philips Senseo Coffee Maker (110 USD)

Location **New Jersey** https://www.genclassifieds.com/x-560748-z

Brew a cup of coffee at the touch of a button

Uses pre-measured pods

Includes two pod holders: a shallow holder that holds one coffee pod for one cup, and a deeper filter that holds two pods for two cups.

Up to five 4-ounce cups can be brewed on one reservoir of water

The Senseo is simple to use - start by filling the removable reservoir up to the "max" line. Then, insert the pods you are using, and lock the lid into place. Next, push the "on/off" button and the brewing process begins with either one or two cups. You can brew up to five 4-ounce cups on a single reservoir of water. To make clean up easy, the removable parts, including pod holders, reservoir, coffee spout, plastic drip tray, and metal cup tray, are dishwasher-safe.

Used - as is. If the ad is up, it is still.
