I need an individual to contact local businesses and invite them to an Economic Summit event. The individual would be provided with the contact information, but would be required to make direct phone calls to discuss the event, and get an RSVP from the business owner.

This is a contact position. You must be available during the hours of 9:00 am-4:00 pm.

This position pays \$10/hour cash plus a bonus tied to performance.

Previous customer service and sales experience is highly preferred.

You must have a telephone with a (701) area code.

If you are interested and have the experience i would love to speak with.
