

Looking for a experienced plumber for multiple jobs. (from Burlington to Winston Sale

Location **North Carolina** https://www.genclassifieds.com/x-560911-z

I am looking to hire an experienced "on call"plumber for multiple jobs at various times. All of the jobs would be "booked" several days in advance. Duties would include installing dishmachines, water filtration and dispensers that dispense chemicals in restaurants, hotels and other commercial settings.

Payment by credit card would be preferred, unless you don't mind filling out paperwork, tax forms, and waiting for corporate to cut you a check....3-4 weeks.

Area of business would be anywhere from Mebane to Winston Salem and the surrounding.
