

# 1979 wetbike 60hp very clean (800 USD)

Location **North Dakota**  
<https://www.genclassifieds.com/x-560941-z>

1979 Ultranautics WetBike. It was sitting in a barn in Iowa for 30 years. Once I got, it I replaced the 50hp engine with the larger 60hp engine from a 1989 seaflash. Everything has been gone through including carb, gas tank, and pump oil. The prop and pump are in excellent condition. This is a good runner and I am regretting selling this as I type. I have been on a very large vintage jet ski kick and I need to tone down the fleet. Anyways I don't need to sell this and it is very nice for what it is. I also feel the price is very aggressive for a wet bike of this caliber.

Battery not included in the sale but I have one available to start it up upon inspection.
