

Still On Windows XP

Location **Pennsylvania**
<https://www.genclassifieds.com/x-561243-z>

I truly believe Windows XP was the best Operating System Microsoft ever produced, hands down.

Not only in terms of system stability, but also no operating system is as user-friendly and intuitive as was Windows XP.

This is why it was supported by Microsoft for a whopping 12 and a half years

I still prefer it and use it myself.

If you are still on Windows XP,

I would like to be the person you turn to to solve your computer issues.

I can assure you that I will make your machine more secure and run faster than you ever thought it could be.

Definitely call me if you have any virus issues

My computer is running slow, having trouble freezing

with no need to worry about losing important pictures or files

We can back these up first to alleviate your fears!

When I am done I will have that Windows XP computer running like a champ!

I am also affordable and flexible on payment!

If I do not answer please leave a message or better yet just text me

I will get back to you ASAP

Kevin
