

Still On Windows XP

Location **Pennsylvania** https://www.genclassifieds.com/x-561243-z

I truly believe Windows XP was the best Operating System Microsoft ever produced, hands down.

Not only in terms of system stability, but also no operating system is as user-friendly and intuitive

as was Windows XP.

This is why it was supported by Microsoft for a whopping 12 and a half years

I still prefer it and use it myself.

If you are still on Windows XP,

I would like to be the person you turn to to solve your computer issues.

I can assure you that I will make your machine more secure and run faster than you ever thought it could be.

Definitely call me if you have any virus issues
