Squarespace < <http://www.squarespace.com/> > is a very approachable and easy to use website builder. Even so you may feel uncomfortable with websites, computers and technology or just not sure where to start! That's where I come in! I'm Tom and I've been getting websites up and running since 1994 and working with computers for 39 years.

When you need a website let me help you get going! I want to help you at whatever level meets your needs, from as little to as much as you need.

On top of the costs for hosting your website, registering domain names, etc., I charge for my consulting time. My rate is \$50 USD per hour, billed in quarter hour increments. The consulting cost for a basic 5 webpage brochure type website < http://www.tomsWebHosting.com/faq/#brochure_website > is about \$250 USD.

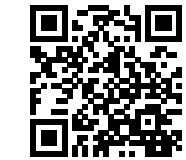

To get your website going contact me and let me know what you have in mind for your website. The more detail you can provide the better. Even if you have just a general idea in mind I can guide you to the website you want to have.

If you have questions about Tom's Web Hosting, please ask < <http://www.tomsWebHosting.com/contact/> >.

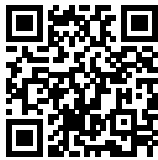

To visit the previous URLs put them in the address bar of your browser and press the return key.
