Get paid to travel around the country.

Our customer, a manufacturer in Milwaukee, is in search of individuals who have the freedom to travel for up to 2 weeks at a time, in order to assemble their product onsite at various customer sites throughout the country. They make custom commercial cabinetry, displays, and fixtures for department/retail stores.

You will start by working in the warehouse, learning about the company, and learning how to assemble their product. Once up to speed you will be sent on installation assignments that could range from a few days to two weeks straight on the road. Airline travel will be involved.

If you are mechanically inclined and have the ability and desire to travel frequently this is definitely the job for you. They will train you on the proper assembly techniques and teach you everything else you need to know.

The ideal qualified candidate will have:

The ability to travel

Mechanical aptitude

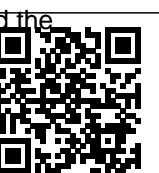

A valid driver license

Enough self-discipline to work hard all day, every day, no matter what you are doing.

Working in the warehouse: \$11.25 - \$15/hr

On the road: \$15 - \$20hr (and tons of OT, paid travel/expenses)

If this is something that sounds interesting, send me your resume immediately! For the right person, this is an incredible opportunity to get paid to travel around the country.
