I am wanting to host a story-telling / memoir (visual aid - pictures, music) group - 5-10 people, where we get together at my place and tell our "stories" through visual aid / imagery, possibly music, poetry, etc. for healing purpose.

PTSD, sexual abuse survivors, childhood abuse, abuse, etc. A HEALING group where we can all be CREATIVELY EXPRESSIVE to heal our trauma personally and collectively / collaboratively.

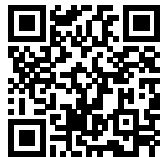

You / the group will need magazines to cut out of... computer paper, a couple printers, personal laptop if you have one, personal photos, personal poetry if you have some, TIMELINE, etc. Yesssss, we will all work on a timeline, as well.

If interested, please text message me at:
