Established Cover Band with gigs on the books is seeking a guitar player with the following qualifications:

1. You Must like to play ALL KINDS of music! Including current music such as Bruno Mars, One Republic, Taylor Sift, Etc. We also cover the Beatles to Bon Jovi, whatever will get people up to dance. You would be expected to learn the catalog (about 50 tunes) in a short period of Time.
2. You Must be able to learn songs off a record or by Ear. Certain Songs we play require the guitar player to pick off Riffs that are "Signature" to the song. These need to be exact since they are usually newer music and are Fresh in people's minds.
3. You Must have some experience playing out live.
4. You Must WANT to play out at least once or twice a month (more in the summer time).
5. You Must have Pro Quality equipment

We are Fully Established Band in the Burlington area comprised of 6 musicians. We practice once a week and play out twice a month (more in the summertime). What we need is a talented guitar player that is looking for a PRO situation. We expect you to come to rehearsal knowing the material we are working on and we expect you to keep the gig commitments we make.

Do you think this is YOU? Then please drop me an email and let's talk!
