Hello, we are a college age couple looking for housing for as soon as possible. We are currently living with family, but have no permanent place to live. We are clean and respectful people. We spend most of our time inside playing video games or watching Netflix. We would love to build a tiny home or a "hobbitat" in the future, but since we don't have the funds right now, we are going to focus on finding a place to live for right now. We would love to live in a place where we can have a garden. We are also looking at eco villages or co housing options. If you or someone you know has a place for rent, we would love to take a look. We are hoping to stay in the New England area. We don't need anything fancy or large. We are also willing to house share. We are becoming desperate. If you have anything in mind, please click the "reply" link and shoot us an email.

Thanks so much
