

# WANTED AMATEUR amp PROFESSIONAL PHOTOGRAPHERS (SALT LAKE, DAVIS)

Location **Utah**  
<https://www.genclassifieds.com/x-561605-z>

Hello.

National Parts Locator Service (NPLS) has been in business for over 3 decades locating hard to find parts, accessories, literature, etc. for antique, classic, automobiles, trucks, and motorcycles. In 1995, we started the Utah Car Club Girls (UCCG), working with women models because the owners' of these fine vehicles wanted models to pose with them, like you see in the magazines. At one time, we had models traveling out of state on a regular basis to pose with antiques in vintage clothes, in bikinis with muscle cars and motorcycles.

If diamonds are a woman's best friends, cars are certainly mens.

But now times are tough. We want to give photographers and models a break in cost and a chance to expand your portfolios. You will get a chance to work with models, who will help you do exactly that, in great locations. Your portfolio could have images of a beautiful woman with a sunset, playing on the beach, a live pinup with a war bird or helicopter, melting into the beauty of a waterfall, a beautiful mirage at the Salt Flats, au natural with the Mountain, sensuality with the Desert, peace at a Lake/Pond, the complexity of a Scrapyard, the art of a chopper motorcycle, the design of an antique or classic car, softness of a botanical garden, the colors of a park, dressed in vintage clothes with a train, and more. All outdoors. In the future, we are hoping to have access to indoor studios.

Each photographer will be expected to pay a shooting fee. The fees will range from \$20-\$100, for each meet. You only pay for the meet you plan on attending. Your fee pays the model, permits, owner of cars, etc. You should include your telephone number, every time we talk, so we can give you proper credit, and tell you of any last minute changes. You can pay by credit card.

### HOW IT WORKS:

We will send you photos of your horse, and the price, title, subject, class, year, submission and fee. You are interested? You may then have 7 days to announce interest or calling us at 01691 821000 or via your favourite number on mobile.

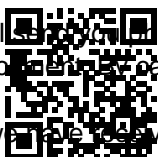

After we have received the file, we share with you the location of the other files. The initial ratio is 2:1. 2

Considering the value of the Meet, we want the Photographer and the Models to sign Model Release. The Model Release allows the Photographer to use the photos for your portfolio and you promise to send CD to the models of any images you take that day. This seems fair, all things considered.

The photographers will be split into even groups and assigned to a model. Each model will be setup at a different station. At regular intervals photographers will trade places and models will change outfits. And change stations again so we get the best possible combinations.
