

John Deere 2940, factory cab, new engine (12000, USD)

Location **South Dakota**
<https://www.genclassifieds.com/x-561769-z>

The motor was just completely overhauled, cost \$6000 have the paperwork to prove it, so that makes this tractor worth more then average. factory cab with heater and a/c, a/c not working, quad range, 3 point, 2 hyds, 2 pto, 7800 total hours, had a loader on it and still has the loader controls in the cab, very good 18.4x34 tires, the tractor may look a little rough but its just minor cosmetic things. I do have a loader that you could buy for extra.
